	R-15 Rigid Wall 2.5" thick Stationary
	R-21 Rigid Wall 3.5" thick Stationary
	R-27 Rigid Wall 4.5" thick Stationary

Light Insulation: Used for separating areas approximately 10° - 15°F temperature differential.

Medium Insulation: Used for separating areas approximately up to 25°F temperature differential.

Heavy Insulation: Used for separating areas with approximately up to 40°F temperature differential.

Questions:

1) Colors?

Vinyl:

Black Gray Blue White

2) Is the curtain going to be retractable or non-retractable?

Retractable: Curtain slides along a track system from one side to another. Opens up the space when curtain is not in use; immediate divider when needed. R-Values of R4 through

AmCraft Manufacturing, Inc.

580 Lively Boulevard

Elk Grove Village, IL 60007

sales@amcraftonline.com

www.amcraftmanufacturing.com

R12 can be retractable.

Non-retractable (Stationary): When a curtain is fixed in place and does not need to move.

R-Values of R8 through R27 can be stationary.

3) What is the layout of your track system?

3a) Please **mark** the front side (**nice side with no visual hems**) of your curtains. Use the space below to re-draw the layout, if needed. Use letters to label sides (Side A, B, etc).

4) What are the dimensions of each opening?

[For Each Side, determine measurements using the following template]

_____ ft _____ in (Height) X _____ ft _____ in (Width)

4a) Please use the space below to describe which panels connect to each other. Also determine if the sides will connect to an existing wall. From question #3, please use the same letters to refer to each given side.

5) Do you need any strip doors and/or passthroughs in your curtain? How many do you need?

Please note the dimensional location of the access point(s) in reference to question #3 (which side?).

This dimension should be determined as if we are facing the front side.

- a. Strip Doors (affects R-Value)
- b. 8" Curtain Overlap (includes overlap trolley)
- c. Other (Custom Built Options)

6) What options are you interested in?

- a. The most common options for insulated applications are (but not limited to):

Floor Sweep

Straps and Floor Mounted D-Rings

Edge Sealing

Tiebacks

Filler Panel

Vision Panel

Enclosure Top / Ceiling
